### A Word to Republicans

The hope of the party lies in the expansion of a stalwart Republican press. The Republlean who reads or otherwise helps to support a Democratic paper to the exclusion of one of his own party newspapers is untrue to the Republican cause.

Unanimously subscribed to by the National Republican League.

J. S. CLARKSON, President. A. B. HUMPHREY, Secretary.

THE Indian bill, which has recently become a law, carries the gross sum of

was \$2,917,060, or \$603,535 more than Woonsocket? the sum appropriated. This large cut in the estimates submitted by the Inamounting to much more than half a complete the establishment of the several training schools according to the plans of the Indian Office. It was intended to substantially complete these non-reservation schools so that they and most efficient service which they bill not only failed to make suitable provision for their completion, but it carries restrictions of such a nature as in some cases, to very seriously hinder the usefulness of these schools.

In the next place the Indian Office asked for \$200,000 for the erection, enlargement and repair of school buildthe last three years a large amount of and comfortable, and some new schools have been built. The sum absolutely during the coming year was stated by the Commissioner in his communication to Congress to be over \$300,000, and it is safe to say that this entire amount could have been very profitably expended in the improvement and enlargement of the Indian school system. The amount allowed for this purpose, however, is only \$100,000, or less than a third of that which was stated to be absolutely necessary. This will, of necessity, prevent the establishment of new schools where they are greatly needed, and the where the faculties are very unfavora- ankle. ble. The serious nature of this hindrance will be appreciated when it is stated that there are among the Navajo Indians alone probably 3,000 children of school age for whom no educational advantages

whatever have been provided. The general fund for which the In dian Office urgently asked, \$1,300,000, ing Bridge disaster continue to be filed at was placed at \$1,075,000, or \$225,000 less Newport and Covington. than what was earnestly requested. This cut checks at once the rapid and healthy expansion of the school service, and confines the office to the carrying on of the schools substantially as they were at the close of the last decal year. Little or no advance can be made during

bening twelve months.

Istalled statement of the needs in your while.

this direction was made by the Indian Office, showing the enlargement of the capacity of schools already existing, the new schools that have been established, those that ought to be enlarged, and places where new schools should be built, and on this careful figuring it was estimated that not less than \$315,000 increase of the general fund should be granted. By refusing to do this Congress has made it impossible for the In dian Office to extend the work of education, and thus has checked for the time the plans which were being so successfully carried into execution.

Every friend of Indian education, who realizes that the future of this interesting people depends so largely upon the proper industrial training of their children, will regret what seems to be the short-sighted policy of Congress in refusing to appropriate necessary funds for the enlargement and carrying out of the work which is being so successfully prosecuted.

Various reasons were assigned for the refusal of Congress to grant the request of the Indian Office for educational purposes, but the real, and indeed it may be said the only reason why the request was not granted, was the desire on the part of the House of Representatives to make a record for economy. Indeed, it was openly stated by influential members that it will be necessary to cut Indian education to the quick now for political reasons, but that after the election the next Congress would doubtless be willing to vote whatever sums of money might be necessary for this work. We cannot believe that the people of the United States, who are so tired of the Indian question as heretofore managed, and who are so thoroughly united in the opinion that the only solution that is possible for it lies in the direction of education, will look with favor upon any political party which deliberately checks this work and hinders its progress for no other reason than to make a false appearance of economy.

WE should not wonder if this is the same mill of which it has been said that the ground it stands on, which a couple of years ago produced a ton of hay to the acre, now produces a ton of yarn to the square foot yearly.

THE OLIVER SPRINGS BATTLE

Miners Capture the Enouville Militia Stockade Burned and the Convict Shipped to Clinton—All State Troop Ordered Out.

NASHVILLE, Tenn., Aug. 18 -Another battle was fought Wednesday, and thirty-three hundred armed miners are grimly besieging the little garrison at Coal Creek, determined to starve them out or force the surrender and release of the convicts. Gen. Anderson and his two hundred men are cooped in from the rear and front, and his water supply is cut off, and the end must come soon. Five hundred men, a posse summoned by Sheriff Holloway, ordered by the governor, are on the march to reinforce Anderson, but it is impossible to check the maddened miners, whose forces will soon swell to 6,000.

About 180 miners, those who were repulsed Tuesday by the little band of twenty guards, waited all night for the soldiers to come into the valley. The special train with the Knoxville company on board, about fifty strong, was captured Wednesday morning and the troops corraled in an opening, disarmed and guarded by several hundred miners, while the others marched to take the stockade at Oliver Springs. They did take it after a fierce battle. One thousand shots were fired in half an hour. Two guards and four miners were wounded, one of whom is dying.

If aid does not reach Gen. Anderson soon he will have to surrender or starve. The stockades burned, the convicts released, and the free miners will have whipped out the state, and succeeded in driving convict labor from the valley, and the matter will be forever ended in Tennessee.

NASHVILLE, Tenn., Aug. 18.—Gov. Buchanan has just ordered out all the troops in the state, nearly one thousand infantry, and two artillery batteries. He has also ordered the sheriffs of Davidson, Shelby, Knox and Hamilton counties to summon one thousand men in each county. The counties of Marion, Auderson, Morgan and Boone are to furnish five hundred men each. The posses are to go on special trains. Twelve hundred men of the posses, with company F and battery A, left Nashville, Wednesday night.

A late telegram says that Maj. Chandler, with the Knoxville soldiers, started to Coal Creek, but were driven back by the miners. The soldiers were run for six miles, a cross fire being kept up all the time, and one miner was wounded. The whole state is excited, and eight thousand soldiers and deputies will ar

rive at the mines by Thursday noon. Nothing can be heard from the garrison at Coal Creek, and it is expected a desperate battle is about to occur.

The Heavy Gold Shipments.

WASHINGTON, Aug. 18 .- Treasury officials while apparently unconcerned over the recent gold shipments are generally observing an unusual reticence in the matter. Acting Treasurer Whelpley takes a very philosophical view of the situation and says he sees no occasion for any excitement because the assistant treasurer at New York paid out \$1,000,000 in gold for export im the transaction beyond the fact that gold shipments seem to have continued a little later this year than herecouragement of anything like a systemin the interest of foreign speculators.
